BOOZE OR MEDICINE?

Which will you have? If a woman suffering from one of the delicate ailments peculiar to your sex it will be well for you to know that Dr. Pierce's Favorite Prescription is the only remedy advertised for such maladies which is absolutely free from intoxicating liquors and all other harmful agents. The good you feel from its use is not the delusive exhilaration from a tippling beverage, from which the system reacts into a worse condition than before. It may be a little slower in manifesting its bracing and invigorating action, but its benefits are none the less positive and, best of all, they are *lasting*. It's an honest medicine—not a beverage.

"I have been taking your medicine for the last three weeks and can say I am gaining strength," writes Mrs. Seneth Kinny, of 603 East Madison Street, Mount Pleasant, Iowa. "I have been having very poor health all winter. I doctored with our family doctor but was relieved only while taking the medicine. I took Dr. Pierce's medicine several years ago. I knew it was good for any one suffering with female trouble. Have taken only one bottle and am gaining strength very fast. I could not eat nor sleep when I began taking the 'Favorite Prescription.' Heart troubled me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. If I continue with your treatment am positive I will be cured."

Every suffering woman in this land should write to Dr. Pierce and learn how certainly he can help her to health and strength. It costs nothing to write and receive entirely free the advice of one of the most experienced physicians in this country. His great thousand-page book the Common Sense Medical Adviser, in stiff paper covers, will be sent free for 21 one-cent stamps the bare cost of mailing; or, send 31 stamps for cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets These ORIGINAL Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago, have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged Stomachs, Livers and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

Don't allow the dealer to insult your intelligence by offering his own remedy to you instead of this well-known preparation of Dr. Pierce.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

"LOST TRIBES OF ISRAEL."

New York yesterday entertained an angel unawares. And the angel had 82 followers, whom he is leading from Australia to Benton Harbor, Mich., for the millenium, 10 years hence. They are, so say themselves, the Lost Children of Israel, who found themselves in Australia and have come home to America for the approaching millenium.

When the angel, who also calls himself Benjamin, descended to earth from the North German Lloyd steamship Princess Irene with all his followers—men, women and children—he had to submit to the ills of the customs examination, which even the flesh of angels is heir to.

The women wore necklaces of pearls and brooches of sapphires and diamonds.

As the Lost Tribes of Israel—they are not Jews—think it is not according to the Bible to wear a last name, the visitor had to ask for Benjamin just as familiarly as if he was his long-lost brother.

"Are you Benjamin?" a correspondent demanded, tapping the leader on the back.

"I am Benjamin," he answered, solemnly.

"Benjamin," pleaded the visitor, "tell me of your religion."

"My son," answered Benjamin, "I am gathering together the Lost Tribes of Isreal. I am leading them to Benton Harbor, Mich., where we shall await the millenium, which is near at hand. We are living in the eleventh hour, and before the eleventh hour is ended 144,000 of the children of Israel will gather about me and be saved in the body. That will be soon, though it will take about 10 years yet to clean the trouble out of the world.

"Before the millenium can come seven angels must appear to the world Six have already appeared and passed away. Benjamin, the seventh and last, is now on earth. He will lead the children into the promised land—the new Garden of Eden on earth."

"Benjamin is an angel now living?" I asked.

"Yes, verily."

"But you are Benjamin? Are you an angel?" gasped the visitor.

"I am an angel," he murmured. "I was born in Kentucky. I knew I was an angel first when I divined the mystery of the life of the body. The body is immortal if the soul obeys the commandments. Enoch and Moses knew immortal life without having suffered death."

"Do you believe that you will never die?"

"I will never die," answered the angel Benjamin.

"Benjamin, I understand you have a wife, Mary, where is she?"

"Here." He pointed casually to a slight woman, whose neck was covered with three strings of pearls, but who looked none the less like an uniformed Salvation Army officer.

"Is she an angel, too?"

Mary spoke out to clear her own mystery.

"We are one flesh." she said. "Man without woman, husband without wife exists not. We are both the same angel."

The Lost Tribes are on their way to Benton Harbor, Mich., where they say 400 members of the sect already are established. They call themselves Children of Israel, and are vegetarians. The men wore long hair and beards. They profess to believe in the saving of the mortal body as well as the soul.

The Israelites explained that they were getting together now, so as to be prepared to ascend to heaven together in August, 1916, when they believe the end of the world will occur and Satan will be overpowered and put in bondage. They aver that only one tribe of Israel, that of Judah, is now lost, and they expect to find that tribe before the end of the world.

Assaulted and Choked to Death.

Assaulted, then choked to death, and her body cast over a steep declivity on Chaplin Hill, within view of her home and the city of Wheeling, W. Va., was the fate of Hulda Schubart, aged 19 years, daughter of a dairyman, Charles Schubart. The girl left home Monday morning at 7 o'clock to walk down the winding, isolated road from her father's dairy to Wheeling, a half-mile distant. That was the last seen of her in life. Yesterday afternoon her body was found by her lover lying, rain-soaked and bedraggled, six feet below the road Her neck was discolored and marks of powerful fingers on the white flesh were easily found. Later investigation led the police to believe that before death Miss Schubart had been maltreated. Although confident the girl was murdered, the police and her parents are unable to suggest a clue to the identity of the criminal, She was to have been married in a short time, and her tragic fate has angered the whole city. It is evident she was murdered Monday, perhaps by a gang of vagrants known to infest the hills whenever the weather permits.

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive menstruation accompanied by unusual pain extending from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:— (First Letter.)

"In looking over your book I see that your medicine cures Tumor of the Uterus. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, 7 Chestnut St., Bradford, Pa.

Dear Mrs. Pinkham:— (Second Letter.)

"I take the liberty to congratulate you on the success I have had with your wonderful medicine.

"Eighteen months ago my monthlies stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor on the uterus and would have to undergo an operation.

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by the physician and he says I have no signs of a tumor now. It has also brought my monthlies around once more; and I am entirely well. I shall never be without a bottle of Lydia Pinkham's Vegetable Compound in the house."—Fannie D. Fox, Bradford, Pa.

Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham:—

"About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor in the uterus.

"I felt sure that it meant my death warrant, and was very disheartened. I spent hundreds of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment, finding to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and words fail to express how grateful I am for the good it has done me."—Miss Luella Adams, Colonnade Hotel, Seattle, Wash.

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

Inflammatory Rheumatism Cured.

William Shaffer, a brakeman of Denison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by Gibson & Timberman and W. F. Creighton & Co.

GOOD FIGS CHEAP.—To close them out I will sell 250 lbs. Figs at 7c pound. Price before Christmas 10c. J. C. MILBURN.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, MAR. 24, 1905.

THE ADMINISTRATION is gradually beginning to realize what many practical people knew seven years ago, that this country would saddle upon itself an elephant when it took possession of the Philippine Islands. The objections urged against this ill-advised freak by people having the welfare of the country at heart were logical, but an expansion epidemic was raging, more acute than John Law's Mississippi scheme or the South Sea bauble, and, as is usual during the prevalence of national distemper, reason was temporarily dethroned. The republicans operating the ship of state during and since the Spanish war now seem to be "clothed and in their right minds," and have come to the conclusion that the Philippine Islands can never become profitable to the United States, and they are contemplating unloading them upon Japan, thus admitting that the twenty million dollars paid Spain for the islands—many of which never belonged to the Castilians—and the many millions subsequently expended in subduing the natives are virtually sunk in the Pacific ocean. The administration is now bringing forward the same reasons why the United States should dispose of the islands that many people urged against their acquisition seven years ago. The rise of Japan into a world power may or may not become a menace to the United States—probably not during the present generation, but there is no forecasting the future. The French, English and Germans have for years been squatters in the celestial empire, maintaining their positions by might rather than right, and with the United States within 600 miles of Hong Kong, this country is keeping company with nations objectionable to the Mongolians. The worm may turn upon the intruders.

SECRETARY SHAW and Senator Allison were in New York yesterday and are reported to have consulted republican authorities regarding the revision of the tariff. But the republican party got along so well in the late election on a "stand pat" platform, and the demands for tariff revision which were uttered as soon as the result of the election was known were so summarily suppressed in Congress, that it is hard to believe that the leaders have any notion of meddling with a dangerous subject. The Philadelphia Record suggests that if Messrs. Shaw and Allison are really studying the matter of tarift revision they consult the Union League Club, a stalwart republican and protectionist organization, which early last winter adopted certain resolutions on this subject to which sufficient attention has not been directed, and adds:

The preamble to the resolution adopted by this club recited that "many manufacturers are now so strongly established that unfair or harmful competition is no longer to be apprehended." It referred to rumors that there are such things as trusts that can maintain prices at a level of the foreign price plus the amount of the duty, as a result of which "consumers may thus be forced to pay for articles of necessity prices not only largely in excess of those which can be obtained under conditions of open competition, but prices greatly higher than domestic manufacturers are willing to accept from foreign buyers." For these and other reasons the club resolved that "the enactment of remedial legislation is a high and immediate duty of the republican party." But will it pay any attention to a high and immediate duty that some of its largest contributors will look upon as a hostile act?

As anticpated, the Maryland Court of Appeals yesterday rendered a unanimous opinion affirming the decision of the Circuit Court for Anne Arundel county in the case of the disfranchising amendment to the constitution, which was passed by the democratic majority of the last legislature, and which Governor Warfield refused to sign. The decision means that Governor Warfield is not sustained in his contention that the amendment was not valid without his signature, and hence could not be legally proclaimed by him. The view was urged upon him by the leading democrats of Maryland but he refused to heed them. As a result of the decision the governor is called upon to comply with that provision of the State constitution which requires the publication of the amendment in leading newspapers throughout the State. The decision is undoubtedly a victory for the democratic managers who prepared the amendment, who supervised its passage by the democratic majorities in the last Senate and House, and who should and doubtless will now devote their best energies to its adoption by the people at the election next November, knowing full well that if incorporated into the organic law of the State it will mean the perpetuation of democratic power during the lifetime of the present generation, at least.

A NEW YORK paper prints a letter received from a correspondent in Paris offering to sell on good terms the title of duke. The correspondent is the agent for the impecunious nobleman. He believes some rich American will be glad to purchase the distinction, and he thinks it would greatly aid the son of such a man in the matrimonial market. And, shame to admit it, there are many rich fools in this country who will be glad to become title purchasers.

OVERCOATS which were discarded a few days ago have been donned again and are quite comfortable.

From Washington.

[Correspondence of the Alexandria Gazette.]

United States Minister Griscom has sent to the State Department from Tokio an intereresting report on the subject of merchant vessels captured or lost in the Russo Japanese war. He says that so far as known up to this time the Japanese have captured twenty-three merchant steamships, most of which were fine vessels. Of this number thirteen were Russian, seven British, one French one German and one Dutch. He makes the comment that no merchant steamer flying the Russian flag, nor any merchant vessel of non-Russian nationality carrying contraband of war, has been sunk by the Japanese. On the other hand nine Japanese merchant vessels have been sunk by the Russians, of which six were privately owned and only three were under charter by the Japanese government. Minister Griscom adds: "No vessel was captured by the Russians who resorted solely to sinking the enemy's craft." The number also calls attention to the fact that the Japanese sunk seventeen of their own vessels for the purpose of blockading Port Arthur. The total tonnage of these was 35,208. The merchant marine of Japan has actually increased since the war began, says Minister Griscom, 53 steamers being purchased abroad, besides the addition of 23 vessels captured.

A fraud order was issued against the Old Kentucky Co., of Covington, Ky., by the Postoffice Department today. The concern sold four quarts of whiskey for $2.25 giving five coupons which could be sold at 50 cents each by the recepient and the proceeds retained. The purchaser of a coupon had a like opportunity to buy and in turn sell. The department holds that the scheme comes under the endless chain principle and that it is a lottery.

The United States government convicted itself of violating the smoke law this morning. Public Printer Palmer, as chief of the government printing office, was fined $50 in police court for permitting the big stack at his institution to emit dense volumes of heavy, black smoke. THE WAR.

While the Czar and his ministers are discussing peace proposals, the Japanese are executing a wide double flanking movement around the retreating Russians near Gunshu Pass, 108 miles north of Tie Pass, and in view of an expected attack or a prolonged siege, the Russians have ordered the women from Vladivostok. It is doubtful whether the garrison has sufficient supplies of food or ammunition for such a trial.

General Linevitch already realizes that unless he can hold the line of the Sungari river, the nearer he approaches Harbin the greater will be the danger of a severance of his sole line of communication.

It is questioned whether he will be sufficiently strong, although receiving about 1,200 reinforcements daily, to hold a Japanese army of between 300,000 and 400,000 in check, but he has been instructed to resist even at the sacrifice of his entire command.

A Japanese force in pursuit of the Russians entered Changtu and a large body of the Russians is reported retreating in disorder toward the northeast, along the line of the railway.

It is reported that the real obstacles in the way of Russia beginning peace negotiations are the jealousies of other European powers, which fear their interests might suffer in a settlement not arranged by themselves. The financial interests of London, Paris and Berlin are now said to be exerting a strong influence for peace.

The internal situation in Russia is a source of continued apprehension. In the south of Russia workingmen and peasants are already joining hands, and from the Caucusus, Poland and other quarters encounters between discontented workers and the police with fatal consequences are reported. At Lamenta, Poland, the troops fired upon the peasants, killing 10 and wounding 50

There are about 40 blockade runners of various nationalities in Japanese ports which have been captured in attempting to enter Russian ports.

All the women have been ordered to leave Vladivostok, indicating that an attack upon, or a siege of, that place is about to begin.

Gypsy Queen Dead.

Chanting weird songs and performing strange rites, the wise men of the Brazilian tribe of gypsies on Wednesday placed their dead queen, Cleopatra, in a grave at St. Mary's Cemetery, Cleveland, O. Solemn high mass was said by Rev. Lawrence Denning. The pallbearers were the six wise men of the tribe, and, according to the customs of the tribe, none of the women were permitted to attend the funeral service or follow the body to the grave. They were engaged yesterday in carrying out their special rites in honor of the dead queen. The queen was remarkable for her beauty and was fairly idolized by the members of the tribe on account of it. The tribe was on exhibition at St. Louis, and while there Charles Judge, a wealthy New-Yorker, fell in love with her and succeeded in inducing her to marry him. When the tribe was ready to leave the exposition Judge tried to prevail upon her to leave it. This she refused to do, and he did not accompany her. According to gypsy customs, this was considered sufficent ground for divorce, and she was permitted to marry the second time. She appeared to grieve over the loss of her first husband continually, and his name was on her lips at the moment she died. The birth of her child caused her death. This child has already been made king of the gypsies, his father being the regent.

Strange Case of Indiana Woman.

Mrs. Susan Sulzer, who apparently dropped dead ten days ago, as she was entering her home in Cannellton, Ind., and whose body was placed in the cemetery vault two days later, is believed by many persons to be alive. A specialist from Cincinnati has been summoned, and an investigation will be made. During the time that the body has been in the vault it has been watched closely. Several times apparent signs of life have been detected. Since her supposed death the wound on her head caused by the fall has continued to bleed at intervals, and her face remains flushed. A few days ago a local physician punctured one of her fingers, bringing blood.

Early this forenoon, the relief fund being raised at Brockton, Mass., for the sufferers by the recent explosion and fire at the Grove shoe factory had reached the sum of $21,552.

JAPAN MAY GET THEM.

While the theory credited to Representative Hull, that the United States is likely to have to defend the Philippine Islands against Japan, is not regarded seriously at Washington, the possibility of a transfer of those islands to Japan as the result of friendly negotiation is contemplated with equanimity by some of the leading men in Congress.

That it would require a large navy to defend the Philippines in case of war is commonly granted, and it is comprehended that Mr. Hull is disposed to play upon this known condition in the interest of the navy. Some of the more experienced men in Congress, however, have been considering the question from a different point of view. Conservative republican leaders believe that it is only a question of time when the desirability of parting with the Philippines will be generally recognized.

Two conditions are working to this conclusion. One is the conviction that the possession of the islands will never prove profitable. The other is an apprehension of industrial competition through the necessity for free trade, or at least a very low tariff between the United States and these new possessions, with a probability of the general utilization of cheap Chinese labor for the developement of the Philippines.

The difficuly that Secretary Taft, acting for the administration, has encountered in trying to induce Congress to reduce the duty on sugar and tobacco demonstrates that the protectionists do not intend that these islands shall ever enjoy the advantage of unrestricted trade with the United States.

The tobacco interests and the western beet-sugar people, backed by the sugar trust will oppose Mr. Taft's efforts to the end. They secure the co-operation of their fellow protectionists by the ingenuous suggestion that the development of industries in the Philippines can be accomplished only through the introduction of Chinese labor, which would eventually result in the competition of cheap labor in many lines of American industry. These influences were strong enough to defeat all of Mr. Taft's efforts during the Congress just closed, and this will continue, though it is fully appreciated that these islands, if undeveloped, will be merely a continuous burden.

A large party of Congressmen will be taken by Secretary Taft on a tour of the Philippines this summer.

Protectionist ideas, of course, prevail in this Congress, and there is a purpose to discourage any sort of competition from the Philippines. It is proposed that the Filipinos shall either be allowed to progress slowly along their own lines, without the encouragement of new industries, or else that the tariff be kept standing. It is conceded to be impracticable to retain the islands in a state of stagnation. It is not believed anything progressive can ever come from the native Filipinos. Therefore the development of the islands must depend upon the extent to which the Chinese and the Japanese are admitted,

Under such conditions some of the most influential republicans in the Senate believe it would be better if the islands were turned over to the undisputed possession of Japan, having no claim upon the protection of the United States nor to trade concessions from this country.

Within the past week there has been some quiet talk among men who usually take the initiative in such matters as to the desirability of entering upon negotiations for the transfer of the Philippines to Japan. The suggestion comes from responsible quarters that such negotiations should be begun soon after the conclusion of peace between Japan and Russia.

THE METHODISTS.

At yesterday's session in Winchester of the Baltimore Conference of the M. E. Church South reports of six of the presiding elders were received and an addresswas delivered by Rev. Dr. J. W. Lambuth, secretary of the General Missionary Board. Rev. J. W. Duffey, presiding elder of the Washington district, led the list of the six presiding elders reporting. Today's Telegraphic News

Another Battle Imminent.

St. Petersburg, March 24.—The situation in Manchuria is once more threatening and it is probable that news of another battle will be received within a very few days. It is reported that the Czar has directed General Linevitch to make a stand at the Sungari river, and to fight there to the last. As the Japanese are known to be close on the heels of the Russians, this probably means that the two armies will soon be joined in battle. There are several reasons which are understood to have impelled the Czar to give these directions for making a stand to General Linievitch. The strongest argument in favor of the plan is that even if the Russian army succeeds in getting to Harbin in safety, it will not be in a position to offer very effective resistance at that point. While the defenses might be strong enough to resist an immediate Japanese attack, General Linevitch would be under the necessity of providing strong guards to prevent the cutting of the railroad. Any lengthy stay at Harbin is regarded as being out of the question under the circumstances, the further retirement into Siberia would be needed. The position along the Sungari river offers excellent advantages for making a stand. The natural defenses give the Russians an advantage. The fact that the river has few fords will hamper Japanese flanking movements. There is another reason which may have had a great deal of weight in influencing the reported action of the Czar. This is the fact that the Japanese have pushed their advantage more rapidly than the Russians at first thought it would be possible for the enemy to do.

Your correspondent has been informed that late reports from the army show that the situation is menacing. The Japanese have penetrated far into the country, and it is reported have already begun the turning movement on the Russian flanks. Telegrams which have just reached here from Guntschuling substantiate earlier reports regarding the Japanese advance. The messages are couched in most pessimistic terms and declare that unless 200,000 reinforcements arrive soon the army must retreat to the Sungari and perhaps retire out of Manchuria.

Guntschuling, Manchuria, March 24.—The Russian officers connected with the headquarters staff seem to be convinced that General Kuroki is moving northeast with the intention of investing Vladivostok. It is reported that all women and children are leaving Harbin where the business houses are closing.

Castro Refuses Arbitration.

Washington, March 24.—After withholding his answer for many weeks President Castro has told the United States that he will not arbitrate any of the pending questions between this country and Venezuela. This intelligence came to the State Department this morning in a cablegram from Minister Bowen and is repeated in almost parallel phrases in the press dispatches.

President Castro's action is in the form of a note in reply to Minister Bowen's recent communication transmitting the demands of the United States that all pending questions be submitted to free arbitration.

In the note President Castro peremptorily declines to permit any of the questions to be arbitrated. The text of his communication is not made public, but at the State Department it is announced that its tone is practically insulting.

Secretary of War Taft, who is temporarily in charge of State Department matters, presented the information to the President and his Cabinet at this morning's meeting,

Much feeling is evinced by the officials of the administration at the tone of the reply which was sent bither verbatim by Mr. Bowen and the dispatch was thoroughly discussed at the Cabinet meeting today.

This reply has brought a crisis in the situation. Mr. Bowen does not say in his dispatch that he has been dismissed from Venezuela, but his relation are so strained that it is almost beyond question that he will be recalled to this country even if Castro does not follow up his reply by handing passports to Minister Bowen. Just what the next step will be is questionable, but undoubtedly vessels of the navy will be sent to the Venesuelan coast and it is very likely that they will institute a blockade of the coast precisely as did the European nations two years ago. Whether that will effect anything or not is less than conjectural. It is likely to precipitate a controversary between the United States, Great Britain, Germany, Italy and France to say nothing of several minor foreign creditors who will have the precedent of two years ago to quote against this country and The Hague decision to uphold them in their position of that date. The moral effect of such action is hardly calculable upon a man of Castro's temperament and with all these factors staring them in the face many of the officials of the government this morning confess to a very pessimistic frame of mind as to the outcome

The very nature of the American claims against Venezuela is against a successful issue. Although the State Department has employed its best efforts to enforce collection it has admitted at different times that in each instance there was an element of doubt whether the American claimant had his skirts wholly clear of the mire which covers Latin-American politics. For instance it has very good ground to believe that the New York and Bermudez Asphalt Company was more or less implicated in the Matos revolution against Castro in the Orinoco country, it holds that Venezuela had a right to expel from its territory A. F. Jaurett, the newspaper correspondent, provided it conformed with its own laws and acted without undue severity, and there is an equivalent doubt of the entire justice of the claims of the Orinoco Steamship Company and of the other asphalt dispute, that involving the fields at Maracaibo.

In Mr. Bowen's note it was stated that in the event of the refusal of President Castro to arbitrate this country would be compelled to "take its own course." That course, whatever it may be, will now have to be decided by President Roosevelt and his official advisers.

Appalling Depravity.

New York, March 24.—Conditions of appalling depravity existing among children on the East Side are being investigated today by the grand jury. The Society for the Prevention of Cruelty to Children is aiding the grand jury, which took up the investigation of its own volition. Several indictments have been found, and a condition of affairs disclosed almost unbelievable. Evidence brought out before the grand jury shows that young school boys were being paid by men to lure young school girls to cellars where their ruin could be accomplished. For each girl procured a boy received ten cents. All of the girls are under twelve years of age. One man has been indicted, who numbers nine young girls as his victims. A conviction in his case will result in a sentence of over one hundred years. Charles Harowitz, a thirteen-year-old boy, informed the grand jury that he had lured a dozen school girls from the Henry street school to cellars. He said he received ten cents for each girl. Hanger Smith, an assistant janitor of a school, was indicted today for criminal assault in the basement of the school.

Murderer Hanged.

New Orleans, La., March 24.—Lewis J. Lyons, the murderer of District Attorney J. Ward Gurley, was hanged between 12 and 1 o'clock this morning in the yard of the parish prison. The crime was committed on the morning of July 20, 1903, in the office of Mr. Gurley. Lyons fired four shots into the body of his victim, and then shot himself in the head, with suicidal intent. He recovered, but the slight of his right eye was destroyed. At his trial the defense of insanity was urged. The case finally reached the supreme court. The board of pardons was asked to commute his sentence, but it refused. About five years ago, Lyons was arrested for stealing a diamond pin from Dan Carroll, a sugar broker. Before he was called for trial the thief was discovered and convicted. Lyons brought an action for damages, against Carroll, and two detectives, but lost his suit. He claimed that Mr. Gurley and the latter's partner, D. C. Mellen, did not properly handle the case, and from time to time annoyed Mr. Gurley. On one occassion he challenged him to fight a duel,

Y., March 24.—General Charles Tracey died at his home in this city early this morning, after an illness of several months, Pope Pius cabled to General Tracey on Monday last the papal benediction, an honor conferred on prelates of the church when on their death beds. He was active in the gold democratic movement and was chairman of the national committee of the gold democratic party. He was president of the Columbia Distilling Company, of Albany.

Order Revoked.

Soukhoum, Caucasas, March, 24.—That the temper of the people of this district has been aroused to the point where only slight provocation is needed to cause touble, was well illustrated by an incident which has just happened. Two socialists were to be deported and when this became known great crowds of people gathered for the avowed purpose of preventing deportation at any cost. Serious rioting was threatened and was only prevented by the action of the deputation of citizens who waited upon the authorities and procured the revocation of the order on the ground that this was the only means of avoiding bloodshed.

Massing Soldiers in Macedonia.

Thirty thousand rifles and 2,000,000 rounds of cartridges have been despatched to Uskub, and large quantieties of guns have been sent to Salonika. All the horses obtainable are being requisitioned for the troops. It is stated that Bulgaria intends to inquire of the Sultan, what is the object of these dispositions.

Halberdiers seized the reins and Alfonso alighted from the back of the frightened horse in a great hurry.

Little Leon, oh my Leon, under the summer skies
A chorus of birds in the leafy trees are singing sweet melodies.

He has mounted right up through the blue
With a message of love to the city above—
My message of love to you.

—HIS MOTHER.

Death of Jules Verne.

Amiens, March 24.—Jules Verne, who had recently been critically ill, died here today. Jules Verne was known over the whole civilized world through his books, which have been translated into almost every tongue. He was more than a great romancer, although he used fiction as the method through which his wonderful ideas were given to the world at large. In his writings he pictured affairs in a manner that only an imagination of a highly conservative order could attain. With unusual foresight he seemed to see the accomplishments of the future, and his books pointed the way to science, although inventors have not been able to keep abreast of the novelist. In a recent interview M. Verne predicted that all fictional findings would be realized. Jules Verne was born at Nantes, February 8, 1828.

The steamer Hamburg, of the Hamburg-American line, with Kaiser William on board, has arrived at Dover, Eng., and later proceeded. The Kaiser is en route to the Mediterranean for an extended cruise.

Experiments With Life.

Prof. Jacques Loeb, at San Francisco, has discovered in producing artificial life by fertilizing the eggs of the sea urchin that they were best fertilized by the use of acetic acid of vinegar or formic acid followed by common salts.

Large numbers of sea urchin larvae, normal and healthy, can be produced from eggs by purely chemical and physical means. Many students of heredity have long been looking for means of raising animals in large enough numbers for experiments which should possess the hereditary characters of one parent only.

Detailed comparisons of such individuals with those which derive their characters from both parents will lead to results in the field of heredity of far-reaching importance.

Everybody's Magazine for April has been received from its publishers in New York. A strong introduction to this excellent number is Richard Barry's "Hell at Port Arthur," illustrated by the author's photographs. Maxim Gorkey is the subject of a sketch and in the translation of Gorkey's "The Road to Shame," one gets a view of Russian life from his standpoint. The story Mr. Lawson tells this month in "Frenzied Finance" is a revelation as to the "strictly business" methods of the "System." In his chapters of "The Greatest Trust in the World" Mr. Russell tells of the vice of "under billing" which the railroads are powerless to prevent. An interesting article on a new economic subject is "Hooligan: the Slum as a World-Power." The "Experiences of a Nursery Governess" keeps up its interest. The fiction, consisting of seven bright stories, is unusually attractive, and in "With the Procession" is found the happenings of the month, reviews of books, music, etc.

James Cooper, a missionary, who recently lived at the Continental Hotel, in Philadelphia, today in New York pleaded guilty to a crime committed three years ago in that city. He was sentenced to nine months in the penitentiary. In January, 1902, Cooper stole $700 worth of jewelry from Mrs. Mattie Beerdower. He disappeared and nothing was heard of him until recently when he surrendered himself and confessed to the burglary. He said he has since become converted.

FRIDAY EVENING, MAR. 24, 1905.

Local Matters.

Sun rises tomorrow at 5:57 and sets 6:17. High water at 10:54 a. m. and 11:20 p. m.

WEATHER PROBABILITIES.—For this section rain tonight. Saturday fair; fresh winds, mostly southwesterly.

The Ferry.

The prospect of the early resumption of the ferry line between this city and Washington is pleasing to many who have daily business intercourse with the capital city, as well as to numbers of others who prefer to make the trip between the two cities by water. The gentlemen composing the new company have entered the movement with energy, and as soon as possible they will have boats on the line. A prominent member of the organization told an Alexandria merchant and manufacturer yesterday that it will require about four months' time in which to construct two boats of the class designed by the new company, but in the meantime the company will endeavor to procure two suitable boats for immediate use on the line which will be continued in service until the new steamers shall have been built.

Mr. C. C. Leadbeater, of this city, has been officially notified by officers of the company of the transfer of the property of the old Washington and Alexandria Ferry Company to the new organization and the filing of the necessary papers in Washington. It is the purpose of the company to construct handsome and commodious terminals for the new line. Some directors of the Norfolk and Washington Steamboat Company are interested in the new ferry, which enterprise has the good will of the first-named organization.

Collision Averted.

A narrow escape from collision in the Craighill channel, near Baltimore, about 5 o'clock yesterday afternoon, was experienced between the Weems line steamer Calvert, ontward bound from Baltimore for Potomac river landings and Alexandria, and the tug Sandow, which had in tow the schooner William H. Yerkes, deeply laden with phosphate rock from Port Tampa. When nearing the tug the Calvert's steam steering gear became disabled and her position was carrying her head on to the tow. Captain Ellinghaus, of the Sandow, signaled the Calvert, but the reply was that she was not under control. Although backing, the Calvert was making way toward the tug and schooner, and to avert trouble the Sandow started to clear the steamer, and in doing so the schooner was put ashore. The Calvert passed clear, and as soon as her steering gear was repaired she assisted the Sandow and both succeeded in floating the schooner.

W. C. T. U.

The gospel temperance lectures by Rev. J. B. Tinling under the auspices of the Allison W. C. T. U. have been continued since last Sunday in the different churches. The lecture last night was held in the Baptist Church, and was gracefully presided over by the president, Mrs. L. Tinsley. Rev. Mr. Tinling delivered a most interesting and instructive address, which was much enjoyed by the large audience present. One of the most pleasant features of the evening was the singing of a beautiful song, "The Ribbon White," composed by the talented and earnest worker in that cause, Mrs. Amy C. Weech, of this city, and set to music by her uncle, Mr. J. B. Fowler, who has quite a talent in that line. This song was very tastefully rendered by Dr. C. F. Outcault. The meeting tonight will be in the M. E. Church South at 7:30, to which all are cordially invited.

Opera House Tonight.

The Wills Muscial Comedy Company presented "A Trip to Atlantic City" at the Opera House last night to a fair-sized and appreciative audience. The show was a bright comedy, replete with good, funny lines and fine music. A great many excellent songs were introduced and everything done to make an enjoyable show what it should be. The "fishing song" scored the hit of the evening. The Gregory family gave a wonderful exhibition, receiving hearty applause, especially little Marguerite. The company is without doubt the best of its kind that has appeared here this season. Tonight "Two Old Cronies," the old favorite, will be the bill, and those wishing to spend an enjoyable evening and to indulge in a hearty laugh should be present. New songs and new sayings will be introduced. A matinee will be given at 2:30 o'clock tomorrow evening.

Steel Rails Ordered.

Steel rails for the double tracking of the Washington, Alexandria and Mount Vernon railway between Alexandria and Washington were ordered yesterday. Superintendent Colvin also put more men at work grading on the line between this city and Four-Mile run. President King left for Philadelphia yesterday, having made a personal inspection of the entire system. He said that the whole $2,500,000 would be put into the road within the year. Most of the money is to go for new electrical equipment. The new motors are to be powerful enough to pull two or three car trains at 40 miles an hour when that amount of speed is needed. Including cars and electrical equipment and the rails, the company has already contracted to spend $800,000.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Milton Thomas, colored, arrested by Officer Henderson charged with stealing a pair of shoes from Jos. Heyman, was fined $5.

George Bryant and George Payne, arrested by Officer Smith for expectorating in an electric car, were fined $1 each.

Hugh Wylie, arrested by Officers Bettis and Smith charged with damaging property, had his case continued.

Anniversary Celebration.

Potomac Lodge, No. 38, I. O. O. F., of this city, will celebrate its 69th anniversary tonight at 8 o'clock in the lodge room on north Columbus street. An idteresting programme of exercises has been prepared and a pleasant evening's experience is anticipated by all who purpose to attend.

Mr. L. Ruben has purchased the lot adjoining the Alexandria House on St. Asaph street for $2,100. Mr. Ruben, it is said, will construct a handsome brick residence on the lot.

Mr. Samuel H. Lunt, auctioneer, will sell at public auction in front of the Royal street entrance to the City Hall at noon tomorrow the following property:

Lot of ground with improvements corner of Queen and Pitt streets.

Lot of ground with improvements on the east side of Patrick street between King and Prince.

Mr. Lunt will sell at 6:30 o'clock tomorrow afternoon in front of the premises two lots of ground with the improvements in Northwest Alexandria (Braddock Heights) known as lots Nos. 19 and 20 in square No. 25 upon the subdivision of the property of the Northwest Alexandria Improvement Company.

Personal.

Mr. Timothy Sweeney, of Upperville, had an ugly fall from his hay mow, a short time ago, getting a fractured rib and some bruises as a result, and while he is not mending as rapidly as we would like to see, we are indulging the hope that he will soon be up and about. His two sons, Messrs. William and John T., of Alexandria have paid him a visit since he was hurt.—[Warrenton Virginian.

Mr. J. Randall Caton, who has been quite sick with grip for the past few days, is improving.

Miss Josie Robinson is visiting Mrs. J. Armistead Carter, in Norfolk.

The Fishery.

Advices from the lower Potomac are to the effect that a few shad are being caught in trap nets in the neighborhood of Blackistone's Island. A few herring have appeared about 30 miles down the river. The finest black bass ever seen hereabouts were on sale in market this morning. They were bringing 15 cents a pound.

Funeral.

The funeral of the late William G. Harris, who died in Garfield Hospital, Washington, on Wednesday, took place from Mr. B. Wheatley's undertaker's parlors this afternoon. Rev. Dr. F. J. Brooke conducted the services. A number of relatives and friends of the deceased were in attendance.

Corporation Court.

[Judge L. C. Barley presiding.]

Com. vs. W. O. Pollard, indicted for grand larceny in connection with the car robbery cases; jury and case in progress.

LOCAL BREVITIES.

The schooner Creswell is being loaded with lumber by H. K. Field & Co. for Indian Head.

A compass was stolen from the schooner Shining Light, Capt. Keith Davis, a night or two ago.

Alfred J. Handrup, son of Mr. F. A. and Mrs. A. E. Handrup, died in Washington yesterday. The deceased was in his 21st year.

The weather this morning was cloudy and foreboding. The wind was still from the southeast, and the tide in the river made high.

A paper is being signed by the property owners on Royal street from Cameron to King agreeing to pay their part of the cost for paving that square with vitrified brick.

In the Circuit Court for Fairfax in the case of D. J. Howell vs. Southern Railway Company, a suit for land damages, the jury rendered a verdict for the plaintiff for $275.

The police have entered into a crusade against all parties who allow boxes, barrels and other obstructions to remain on sidewalks or on curb stones or in gutters. The law will be rigidly enforced against all offenders.

A fight occurred between two men near the intersection of Queen and Patrick streets last night. Both beligerents, it is said, were seriously punished. Blood on the pavement this morning attracted the attention of passersby. The police have the names of the contestants.

William F. Morgan, who has been arrested in Pittsburg, Pa., at the request of Maj. Sylvester, of the Washington police department, charged with passing a number of alleged worthless checks, is said to be "Fordham" Morgan, who was recently in this city and left here after passing several checks that were returned unhonored. He is a golf expert.

Mr. L. Brill, proprietor of the Opera House cafe, sent to this office at noon today some deviled and hard crabs which were greatly enjoyed, as they had been prepared in an inviting manner.

Tomorrow, only, at Rammel's Restaurant will be served delicious deviled crabs and steamed hard shell crabs. Next week, beginning Saturday, will begin the regular season for summer delicacies at Rammel's.

BOARD OF EDUCATION.

The State Board of Education, which met in Richmond Tuesday, after a long session adjourned at an early hour yesterday to meet again April 27. The board was unable to redistrict the State, the difficulty being set forth in the following:

Resolved, That while it is the decided sense of this board that the efficiency of the public school system of the Commonwealth would be materially promoted by combining two or more existing smaller divisions, it finds it impracticable at present to do this because of the basis fixed by law for the compensation of division superintendents, which renders it impossible to secure the necessary supervision over the consolidated divisions; and the board therefore is reluctantly compelled to forego its wishes in the premises until this condition of things is remedied by appropriate action of the general assembly.

It is learned that the committee recommended that the number be reduced from 120 to 80, thereby dropping no less than forty of the men who are now in charge of counties and cities. An effort was made to learn which counties had been merged, but until the report is adopted no information along this line will be given out.

The money available for the pay of superintendents with increased duties is not sufficient to place one man at the head of from three to six counties, and for that reason there is a disposition to wait until after the legislature makes proper provision for this purpose.

The board added "Civil Government" to the studies in the grammar and high schools of the State, and adopted several books for the use of the pupils.

The board has adopted a provision whereby perfect supervision of the schools of the State will be assured. There are to be district, county, city, grand and State inspectors. The five grand division inspectors are to constitute a board for the examination of teachers for licenses to teach in Virginia.

A resolution was adopted offered by C. W. Kent to the effect that political activity be discountenanced in division superintendents. At the meeting April 27th applications for the positions of division superintendents will be considered and acted upon.

The school of methods will be held this year June 27 at Charlottesville, and the summer normal for colored teachers as usual at Petersburg.

City of Newport News vs. Scott's administratrix, from the Corporation Court of Newport News; affirmed.

Callihan vs. State Board of Dental Examiners; writ of mandamus refused.

National Council, Jr. O. U. A. M., vs. State Council, fully argued and submitted.

Langston vs. Bassett and others argued and submitted.

Trigg Company and others vs. Bucyrus Company and others, partly argued and continued.

Next case to be called: People's National Bank, of Lynchburg vs. Virginia Textile Company and others; The Citizens' bank, of Norfolk, receivers, vs. George W. Taylor & Company; Reagers administrator vs. Chappelear and others; West vs. city of Newport News and Robertson vs. city of Staunton, being Nos. 80, 82, 85 and 90 on argument docket.

$3,000 for Dead Child.

The Court of Appeals yesterday confirmed the decision of the Newport News Circuit Court, awarding a verdict of $3,000 damages against the city in behalf of Mrs. Jennie Scott. The case grew out of the drowning of little Jacob Scott, the infant son of Mrs. Scott, in an excavation on Virginia avenue. There had been a heavy rainfall, which had burst the sewer pipe at the place and caused a cave-in, which was filled with water. In playing the little fellow accidentally fell into the water and was found dead by a negro servant. The city contended that the street was not a public thoroughfare in that it had not been graded or opened for public traffic. The plaintiff contended that the street was a public thoroughfare, as it appeared on the registered map of the city in the office of the clerk of the court and that the city had been negligent in not repairing the break and filling the hole.

Italian Immigrants.

The Mattino of Naples in an article on Italian emigration to the United States, says: "Our advices from the United States clearly confirm the expectation that a law to bridle Italian immigration will soon be promulgated. If we Italians have a fragment of national honor left we must prepare to parry the stroke before it falls." The paper proceeds to say that the government should found schools and other institutions to teach the English language so that Italians who contemplate emigration may develop their intellectual powers so that Italy will send to America civilized beings instead of a horde of criminals. In conclusion the paper says: "Until the laws are interpreted so as to send to prison or an asylum all who are born delinquents, and the anarchists who swarm over Italy, our nation must appear to the world as the center of criminal infection."

A Negro in Her Room.

On Wednesday night, about 9 o'clock, at Point of Rocks, Md., Miss Lula Ingram, aged 18 years, went into her bedroom, supposedly to retire for the night. As she entered the room and closed the door a negro jumped toward her. She screamed for help and then fainted. The man immediately made his escape. A few minutes afterward a negro was seen going down the track. He boarded a train on the Baltimore and Ohio Railroad at Washington Junction. The authorities in Washington were notified and a negro from the train was arrested in that city, who said his name was Charles Turner.

Theodore Baumbery, a negro, of Washington, D. C., who walked into the West Forfty Seventh street police station in Yew York, last night, and confessed to the theft of $40, from a man in Washington, appeared before Magistrate Whitman in the Centre street police court, this morning, and said he wanted to be punished for his crime. The Washington authorities notified the local police that they did not want to go to the expense of having Baumbrey extradited. The magistrate then ordered him discharged. Baumbrey cried upon hearing this, and when he left court said that he was bound for Washington, where he would surrender himself.

According to the statement of his attorney James H. Wilson, the self-confessed murderer of John P. Ebert, retired banker of Allentown, Pa., has recanted his confession, and tells quite a different story in which he denies that he killed Ebert or robbed Kistler's store.

A Fiendish Act.

Thrown out of a fourth floor window by his father, it is charged, James Radill, six years old, of No. 477 Third avenue, New York, was saved from instant death Tuesday night by an awning. As it is the boy is in Bellevue Hospital, suffering from a broken leg, fractured skull and internal injuries, received in bouncing from the awning to the sidewalk. Mrs. Radill soon reached the hospital and accused her husband of throwing James out of the window. The boy, on recovering consciousness, also said that his father had pitched him into the street. Mrs. Radill told the police that her husband had often denied the boy's paternity, and that, while drinking early Tuesday, had threatened to drown James in the river. Mrs. Radill said: "My husband came into the house intoxicated Tuesday afternoon and smashed some of the furniture. I sent Jimmie out for a policeman. His father subsequently ran out of the house. He was gone all afternoon and came back about 7 o'clock. Jimmie opened the door for him, and when he saw that he was drunk he ran over to the front window and looked out. His father asked him if he had been out after a policeman, and when Jimmie did not answer he threw him out of the window." Radill was locked up.

Rope Jumping Kills Girl.

In an endeavor to lower the record held by Julia Real, who jumped one hundred times, little Marie Sheridan, daughter of Mr. and Mrs. James Sheridan, of Waterbury, Conn., has met death. She was one of the brightest pupils at the Merriman school and was a leader among her companions. The Real girl had reached the century mark in skipping the rope and little Marie told her schoolmates she would beat the record. As she jumped the one hundredth time she fell to the ground unconscious. She was removed to her home, but doctors failed to restore her and the same afternoon she died. The other girl who jumped one hundred times has also died since, although she appeared to be in no way affected by her strenuous work.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided by keeping their digestion in good condition with Electric Bitters. S A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." E. S. Leadbeater & Sons, druggists, sells and guarantees them at 50c a bottle.

Pleasant and Harmless.

Don't drug the stomach to cure a cough. One Minute Cough Cure cuts the mucus, draws the inflammation out of the throat, lungs and bronchial tubes, heals and soothes and cures. A quick cure for Croup and Whooping Cough. Sold by all druggists.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Proper Treatment of Pneumonia.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the thirty years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by Gibson & Timberman and W. F. Creighton & Co.
